EDUCATION

Bapuji Institute of Engineering & Technology (BIET)

Bachelor of Engineering in Information Science Engineering

Davangere, Karnataka

Aug 2025 – Jul 2028

JSS K.H.K Institute of Engineering

Diploma in Electronics and Communications Engineering

Dharwad, Karnataka

Aug 2022 – Apr 2025

EXPERIENCE

Software Development Intern

Athreya Technologies Private Limited

Dec 2024 – Mar 2025

Hubballi, Karnataka

- Contributing to real-world software development projects in a professional environment, applying agile methodologies and industry-standard development workflows
- Developing production-ready code using C, C++, Python, and Java to solve complex technical challenges and optimize system performance
- Collaborating with cross-functional development teams to deliver high-quality, well-tested code while meeting strict project deadlines and business requirements
- Gaining hands-on experience with version control systems, code review processes, and modern software engineering best practices

PROJECTS

IoT-Based Camera Security System for Vulnerable Populations | Integrated IOT in Hardware

2024

- Engineered an innovative camera-based security system specifically designed for women and physically challenged individuals, integrating IoT sensors with real-time monitoring capabilities
- Implemented smart surveillance algorithms for threat detection and automated alert systems, reducing response time by providing instant notifications to designated contacts
- Integrating digital electronics components for seamless hardware - software communication
- Deployed accessible user interface enabling remote monitoring through mobile applications, enhancing safety and peace of mind for vulnerable users

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java, JavaScript(Learning)

Technologies & Frameworks: Internet Of Things

Hardware & Design: PCB Design, AutoCAD, Digital Electronics, Arduino

Computer Science Fundamentals: Data Structures, Algorithms, Object-Oriented Programming, System Design

Areas of Interest: Artificial Intelligence, Web Technologies, Machine Learning, Cloud Computing, DevOps

Languages: English (fluent), Hindi(fluent), Kannada(fluent)

CERTIFICATIONS & ACHIEVEMENTS

AI for Students: Build Your Own Generative AI Model – Comprehensive AI/ML course with hands-on project implementation

Machine Learning Model Deployment – Demonstrated end-to-end ML deployment expertise using Flask and production practices

ADDITIONAL INFORMATION

Current Focus: Actively preparing for technical coding interviews and competitive programming

Learning Goals: Advanced JavaScript, Data Structures & Algorithms mastery, Full-stack Development

Seeking: Software Engineering Internship opportunities (Remote or Bangalore preferred)
